Oasis, a hidden gem overlooking the ocean, where the mind and body harmoniously unwind. The center focuses on promoting health and body awareness by offering spaces for yoga, sauna, and water activities. Nowadays, people are surrounded by the hectic city and forget to make time for themselves. Oasis is a fertile spot in a dessert where water and greenery can be found. Like its original meaning, this place will be a refreshing get away from the busy lives in the city. The space is influenced by Japanese interiors with simple water features to tranquilize the mind.
